**DECLARATION
for
REISSUE PATENT APPLICATION**

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a reissued patent is sought on the invention entitled

HIGH FIDELITY INSERT EARPHONES AND METHODS OF MAKING SAME

the specification of which was filed on January 21, 2000 as United States Reissue Application Number 09/489,441 ("this application").

I understand that this application is being filed to reissue U.S. Patent No. 5,887,070, which was issued on March 23, 1999 ("the original patent"). I believe the original patent to be partly inoperative because I claimed less than I had the right to claim in the patent. One error being relied upon as the basis for reissue is the previous omission of claims having the scope of claims 16-58 newly submitted with this application. For example, claims 16-58 recite a "housing" instead of a "unitary housing" as recited in the claims of the original patent. I understand that claims 16-58 are broader than any claim in the original patent in at least this respect.

All errors being corrected in this application up to the time of filing of this oath or declaration arose without any deceptive intention on my part. I believe that all errors being corrected in this application up to the time of filing of this oath or declaration arose without any deceptive intention on the part of any other applicant.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose to the United States Patent and Trademark Office all information which I know to be material to patentability as defined in Title 37, Code of Federal Regulations, § 1.56.

I hereby claim foreign priority benefits under Title 35, United States Code, § 119(a)-(d) of any foreign application(s) for patent or inventor's certificate listed below. I have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
